

# CASE STUDY

## MOTOR DEALER

We were asked to explain our service to a busy Main Dealer, supplying new cars and parts, and taking in cars for service

### Why should we use Driver Hire?

- Driver Hire have vast experience of working with car movement companies and van deliveries of motor parts
- We employ drivers who have been doing this work for some time, dress appropriately for the job, and have very good customer service skills
- All drivers are checked, referenced and insured
- We also supply permanent and non-driving staff

### What will we save?

- You only have a temporary driver when you need him/her, for a minimum of 8 hours, so when you are not busy you are not paying for anybody
- Compared to having a full-time driver, this could add up to many days a year
- We can provide an analysis of what you save if you tell us how many days a year you think you might need a temporary driver
- We pay for holidays, sick pay and national insurance
